Objective:

A highly skilled and motivated Full Stack Developer with a passion for building scalable and efficient web applications. I am seeking opportunities to leverage my expertise in both front-end and back-end development to contribute to innovative projects and drive business growth.

Professional Summary:

- 5+ years of experience as a Full Stack Developer, proficient in a wide range of web development technologies.

- Strong knowledge of front-end technologies such as HTML, CSS, JavaScript, and popular frameworks like React and Angular.

- Expertise in back-end development using technologies like Node.js, Python, and Ruby on Rails.

- Extensive experience with databases including MySQL, PostgreSQL, and MongoDB.

- Proficient in version control systems like Git and collaborative development using GitHub.

- Skilled in writing clean, maintainable, and efficient code.

- Excellent problem-solving skills and a strong attention to detail.

Education:

[Degree Earned] in [Field]

[University Name], [City, State]

[Graduation Date]

Skills:

Front-end Development:

- HTML5, CSS3, JavaScript (ES6+)

- React, Angular, Vue.js

- Responsive web design

Back-end Development:

- Node.js, Express.js

- Python, Django

- Ruby on Rails

- RESTful API design

Database Management:

- MySQL, PostgreSQL, MongoDB

- Database design and optimization

Version Control:

- Git, GitHub

Other Skills:

- Web security best practices

- Agile development methodologies

- Continuous integration/continuous deployment (CI/CD)

- DevOps and containerization (Docker)

- AWS/Azure/GCP familiarity

Work Experience:

Full Stack Developer | [Company Name] | [City, State] | [Date Started] - [Present]

- Collaborated with cross-functional teams to develop and maintain web applications.

- Designed and implemented RESTful APIs for seamless communication between front-end and back-end systems.

- Built interactive and responsive user interfaces using modern JavaScript frameworks.

- Optimized website performance, ensuring fast load times and a smooth user experience.

- Conducted code reviews, identified bottlenecks, and implemented improvements.

- Managed and maintained databases, including schema design, data migration, and query optimization.

- Implemented security measures to protect against common web vulnerabilities.

- Deployed applications to cloud platforms and managed server configurations.

Full Stack Developer Intern | [Company Name] | [City, State] | [Internship Start Date] - [Internship End Date]

- Assisted in the development of web applications, gaining hands-on experience with front-end and back-end technologies.

- Collaborated with senior developers to troubleshoot issues and optimize code.

- Participated in team meetings and contributed to project discussions and planning.

Projects:

[Project Name] | [Date Started] - [Date Completed]

- Description: Briefly describe the project, including its purpose, technologies used, and your role.

- Technologies Used: List the key technologies and tools used in the project.

- Achievements: Highlight any notable achievements or results from the project.
